

## **Mr. Wright – Science and Bible**

1x 1-subject college-ruled spiral-bound notebook **for each class you have with me.**

1x metric ruler with both English and metric units (inches and centimeters)

1x pocket folder **for each class you have with me** OR an expanding file folder for all classes.

1x calculator (scientific recommended for high school students, 4-function is fine for middle schoolers)

1x planner (school year format, not regular format)

As many pens and pencils as you think you need. I require each student to have a **green pen** for grading.

1x marble notebook for Bible classes only.

1x USB flash drive for saving work. Prices on flash memory have dropped significantly. Walmart should have a wide assortment for around \$10-15 per. Size does not matter, though typical sizes are 2 or 4 GB. Best Buy, Staples, Office Max, and Office Depot should also carry plenty of flash drives.

All work is to be done in pencil unless otherwise stated. If you prefer to type up your work, that is fine.

Please be respectful of bringing writing utensils and paper to class. I am not a pencil and paper factory.
